

Smart Campus open data

Here's some timeline to our [Smart Campus indoor climate dataset](#).

22.3.2022: Fix: missing .csv headers

In June of 2021, the dataset was mistakenly released without any .csv-headers. In response, release-2021062801 is now made available and completely replaces the previous release. Please note that even though the difference between these releases is small, a new release ensures unambiguous file content.

8.7.2021: News item released

A news item titled "Versatile sensor data opened for IoT exploration" was released on multiple feeds:

- [news on 6G Flagship](#)
- [news on SmartCampus.fi](#)

28.6.2021: Initial dataset released

Smart Campus Oulu release-2021062800 was released on [Fairdata.fi](#) today.
